

# Entry Door

# Entry Door

## *Introduction*

All of our Entry Door sets are reproductions of original antique sets. We remade the moulds and reproduce each piece using the same techniques of over a century ago.

Our sets are compatible with modern mortise locks. Each company has its own location for the cylinder and turn piece as related to the doorknob. We have selected Baldwin mortise locks to use with our reproductions. In two patterns, Rice and Oriental, we have created matching armor plates for the lock fronts and matching decorative strike plates. If you prefer to use your own mortise lock, we can custom fit our plates to your locks. Some patterns also have matching doorbell buttons and mail slots.

Several patterns are offered with large back plates that will accomodate 5 1/2" on center pre-bored doors. The deadbolt is surface mounted above the doorknob on the plate. The doorknob is operated with a standard passage latch. Tubular patterns include: New York, Rope, Rice and Oriental
